<p>Inner lens is separator type;</p> <p>Two ways photography shooting:</p> <p>(1) Macro; super wide to telephoto lenses No restriction for using any FD Lens</p> <p>(2) Telephoto: Infinity to close-focusing When remove inner ring, close-focus When the conversion is attached, infinity.</p>	<p>Inner lens: fixed, no detachable.</p> <p>Single way photography shooting;</p> <p>(1) Macro: not available (interfered)</p> <p>(2) No close-focusing mechanism</p> <p>(3) Wide lens; 28mm/35mm no available</p> <p>DSLR: Full size and APS size (EOS)</p> <p>SLR; 35mm SLR CAMERAS (EOS)</p> <p>An appearance is foggy, reduce resolution</p>

Newly designed FD – EOS adapter:

EOS 5D AND 1D MKII; full frame size- In case of 500mm and 600mm telephoto

**Lenses are used, A lack of four corners are slightly appeared
On the prints. It is not appeared on the LCD display screen.**

APS – CCD size; as magnification ratio is 1.5x to 2.0x is

Adapted for this cameras, even if longer

Lenses are used together with this

Adapter with conversion lens, no appearance is

A lack of four corners of that prints.

Key points:

(a) Excellent sharpness and resolution are resulted

(b) Color balance of Canon FD and New FD lenses is excellent, its quality is obtained

(c) Well balanced camera mount adapter for any lenses.

Such as Telephoto lenses

Production: already started, but it has elefoto brand for the first 1,000pcs. Lot.

All the above specifications are subject to change without notice.

**Remarks: The above tested informations are only reference, according to our
Customer's experiences.**
